Lone Pine Film Festival

Festival Goer's Report they had a Rootin' Tootin' Time' ?

October 20, 2022

Well, I hope everyone had a Rootin,' Tootin,," Good Time!

Liz Gulick and her Film Festival team did a great job, and we had a lot of positive feedback at the museum on the festival. It seems that almost 30% plus were "First Timers" with many expressing their enthusiasm to come back next year.

The Lone Pine Film Festival is a unique, almost yearly family reunion. As I tell people, our museum and programs provide a relaxed and intimate environment to reflect on a treasured classic Western era; explore the unique Eastern Sierra landscape and celebrate the other many genres that the Alabama Hills have contributed to on the silver screen.

The great draw factors for our Film Festival participants are our celebrity guests, seasoned tour guides who curate an exceptional selection of tours, and dedicated volunteers. It is your participation and support that brings people back year after year.

A big thank you to all of you!

It was great seeing so many of my friends and associates from past film festivals and museum visits. I am working with the staff to improve our post Covid communication and programs and expand the museums footprint into more diverse demographics including new links to many of the popular social media websites. We are also working to re-launch our YouTube, Lone Pine Theatre and in the New Year, we will begin offering exciting exclusive content for

Museum Members. Also, A new Museum of Western Film History website is being developed and will launch by year end.

We are always open to constructive ideas on how to improve the museum, events, or Film Festival. Please fill free to send your comments and suggestions.

Have a wonderful and safe Holiday Season,

Best Regards,

Bob Sigman

NEW VIDEO

In early 2022, Documentarian and classic Western Film Fan, Brent Baader, was driving through Lone Pine; but, when he saw the rising marquee of the Museum of Western Film along the West side of Highway 395, and prominent in the landscape below Mt. Whitney; **He had to stop!**

That experience brought Brent back for a weeklong adventure in learning more about the museum and of course, the history of filmmaking in the Alabama Hills and Eastern Sierra. Brent's short video provides an exciting prelude to the legacy of Hollywood's largest backlot for Westerns and the upcoming Lone Pine Film Festival that is celebrated every October. About the Museum of Western Film History

Opened in 2006 in California's Eastern Sierra town of Lone Pine, the Museum is America's premier archive of film and culture of the West, and features memorabilia from hundreds of movies, television shows and commercials filmed in the nearby Alabama Hills and Death Valley. The Museum hosts the annual Lone Pine Film Festival every October, the Concert in the Rocks every June, and numerous screenings and special events throughout the year. Become a member!
